

# STEM – Build & Code with Piper

Give your students the opportunity to use robotics and coding to fuel creativity and perseverance as they learn how to problem solve through collaboration. Taught by San Diego's premier STEM lab and curriculum designer Terra Norine who has worked with countless schools, this course will give your student access to a vast collection of learning tools.

**3<sup>rd</sup> – 5<sup>th</sup> Grades**

**Tuesday 3:15pm – 4:15pm - April 17 to May 22**

**Give your students an advantage in today's world of technology!!**

**Use Piper Kit supplied in class or purchase your own online to keep – Please Notify Instructor**

## **Piper Computing**

### **Hands-On Experience:**

- **Critical Thinking**
- **Coding**
- **Building**
- **Electronics**
